

# Influencing Excellence, Scientifically – Key Takeaways

1. Work as a team to create a *collection* of SPIs and ALoSs for trending and alerting.
2. Select both leading and lagging SPIs ... don't forget about ramp and maintenance!
3. Use SPIs to improve your SMS, while recognizing it's not a complete measure of safety.
4. Address what is keeping you from creating SPIs and you will improve safety.
